

Intech Pumps partners SSG to produce pumps in China

In April 2010, Intech Pumps (Asia Pacific) signed a partnership agreement with **Shandong Shuanglun Group Co, Ltd (SSG)**, a leading pump manufacturer in China founded in 1952.

SSG's office in Weihai City, Shandong.

Under this agreement, SSG will manufacture pumps under the "Intech Pumps" registered trademark. The manufacturing facilities will produce a range of API 610 (Edition 10) pumps for Intech for its projects across South-east Asia.

Intech Pumps will also market and sell API pumps under the "Shuanglun" registered trademark as exclusive distributor for SSG in the region.

With more than 50 years' pump manufacturing experience, its production facilities cover 200,000 square meters in the well-planned and thriving Weihai City in Shandong Province. These facilities house 3 modern production lines, 2 international-standard closed and open mode test workshops, and 400 sets of specialized equipment, including computer-controlled sand-processing machines

and numeric control lathes. The company employs 1,300 staff and workers, including 150 technicians.

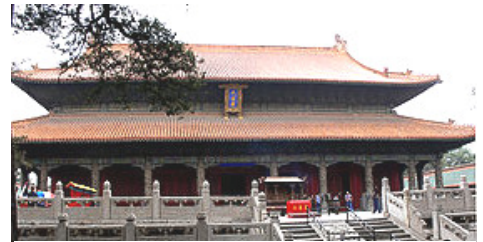

The Confucius connection

Shandong is home to Confucius, and till today retains a rich heritage of learning and ethics, which also permeates the corporate culture of SSG. Intech is indeed privileged to have a manufacturing partner that highly values integrity, wisdom, reputation and honour!

SSG's main products are centrifugal pumps, with an annual output of about 50,000 sets of pumps for mining, municipal water supply, petrochemical industries, agricultural irrigation and drainage. These products have been widely exported to Europe, America, South-east Asia, Middle East, Africa and other countries. The advanced design, quality, performance and comprehensive after-sales service have helped to build a solid reputation for the company both in China and abroad.

World-class

SSG has been certified with the Quality System Certification of GB/T 19001:94 - ISO 9001:94 Standard, ensuring world-class production management. Intech can now boast about having world-class manufacturing

The Temple of Confucius in Qufu, Shandong.

capabilities. We're in the unique position in Asia Pacific with the depth and breadth of products, services and experience like no other in the industry.

Intech Pumps, through this partnership with SSG, is truly the leading pump expert in this region, combining the precision of German engineering and technology with the cost-efficiencies of international-standard Chinese manufacturing facilities and the quality and reliability of our Singapore-based management headquarters.

“ German engineering, Chinese manufacturing, Singapore management ”

Newsflash: Our registered trademark

“
**German engineering,
 Chinese manufacturing,
 Singapore management**
 ”

It is exciting news to learn that our application for the Intech Pumps trademark from the Intellectual Property Office of Singapore (IPOS) is successful and we will receive our official certificate on 12th May 2010. This

ensures that our brand name enjoys international recognition. In line with our plan to manufacture our own brand pumps using German technology, this is an important step forward for our business strategy and expansion.

Black-and-white representation of our registered trademark.

Wedding bliss

Our sincere congratulations to **Erliza Mohamed Basir** (Head, Sales Department of Intech Pumps Malaysia), who has finally tied the knot with **Hanson Teow** on 25th April 2010!

This momentous event was held at Sunway Resort Hotel & Spa in Kuala Lumpur, Malaysia. Many of our colleagues were there to offer our best and

warmest wishes to both the bride and the groom, and to join in the celebrations.

The Intech family extends our heartfelt blessings to Erliza and Hanson for a blissful marriage!
